MDS Furniture began its journey in the furniture industry in 2010 with its first workshop founded in Isparta, Turkey. Since day one, the company has grown steadily by upholding its core principles of **high-quality production, innovation, and customer satisfaction.**

In line with our vision for growth, our first major investment was made in 2018 with the expansion of our machinery park. In 2019, we strengthened our **production quality and design flexibility** by adding a curved edge banding machine to our facilities. Continuing our technological transformation, we further enhanced our production capabilities in 2022 with new-generation machinery.

The year 2023 marked a significant turning point for our company in both manufacturing and commercial activities. To maximize production efficiency, **new cutting and edge-banding machines** were integrated into our production line. In addition, to meet the increasing demands of the industry and offer complete solutions to our customers, our hardware and furniture accessories division was launched during the same year.

Guided by our principle of continuous development, we have set ambitious goals for 2025. As part of these plans, we to add a second edge-banding machine — along with a **state-of-the-art drilling machine** — to double our production capacity and precision.

With its **solid experience** and forward-looking investments, MDS Furniture will continue to be a leading name in quality, reliability, and innovation in the furniture manufacturing industry, proudly operating from the heart of Isparta.

About Us

Bizi Tanıyın

MDS Mobilya, mobilya sektöründeki yolculuğuna 2010 yılında Isparta’da kurduğu ilk atölye ile başlamıştır. Kurulduğu günden bu yana **kaliteli üretim, yenilikçilik** ve **müşteri memnuniyeti** ilkelerinden ödün vermeden sektörde istikrarlı bir şekilde büyümüştür.

Büyüme vizyonumuz doğrultusunda ilk önemli yatırımımızı 2018 yılında makine parkurumuzu genişleterek gerçekleştirdik. 2019 yılında **eğri kenar bantlama** makinesinin eklenmesiyle **üretim kalitemizi ve tasarım çeşitliliğimizi** daha da artırdık. Teknolojik dönüşüm sürecimizi sürdürerek 2022 yılında parkurumuzu yeni nesil makinelerle güçlendirdik.

2023 yılı, hem üretim hem de ticari faaliyetlerimiz açısından bir dönüm noktası olmuştur. Üretim verimliliğini maksimum seviyeye çıkarmak amacıyla **ebatlama ve bantlama makineleri** üretim hattımıza dahil edilirken, sektörde artan talebi karşılamak ve müşterilerimize eksiksiz hizmet sunmak için hırdavat ve mobilya aksesuarları bölümümüz aynı yıl faaliyete geçmiştir.

Sürekli gelişim vizyonumuz doğrultusunda, 2025 yılı için iddialı hedefler belirledik. Bu doğrultuda üretim kapasitemizi ve hassasiyetimizi ikiye katlayacak ikinci bir bantlama makinesinin yanı sıra **son teknoloji bir delik makinesini** parkurumuza ekledik

MDS Mobilya, **köklü tecrübesi** ve geleceğe yönelik kararlı yatırımlarıyla, Isparta merkezli olarak mobilya üretiminde kalite, güven ve yeniliğin öncüsü olmaya devam edecektir.

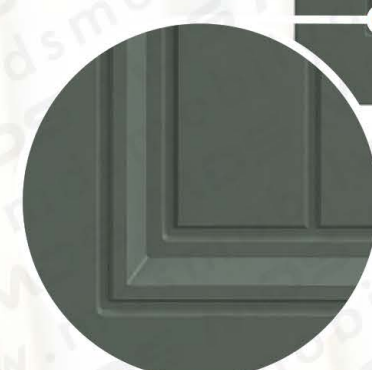

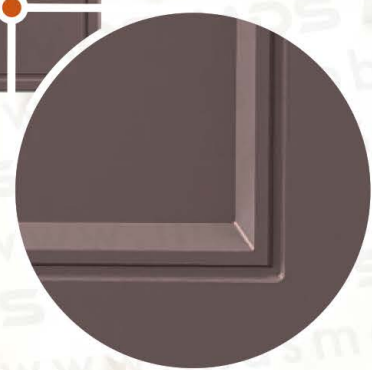

TARİHİN DAĞLARLA BULUŞTUĞU ŞEHİR

Toros Dağları'nın eteklerindeki antik Pisidia'dan ilham alan bu seri, bölgenin güçlü, sade ve kalıcı karakterini modern tasarımla bir araya getirir.
